

ANIL KUMAR SHARMA

Principal Full Stack .NET Engineer | ASP.NET Core | Angular | React | Azure | Microservices

akjanme@gmail.com | +91 9887111155 | [linkedin.com/in/akjanme](https://www.linkedin.com/in/akjanme) | anilsharma.info

Jaipur, India | Open to relocation | H1B visa

PROFESSIONAL SUMMARY

Principal Full Stack .NET Engineer with **10+ years** of experience architecting and delivering enterprise-grade applications using **ASP.NET Core, C#, Angular, React, and Microsoft Azure**. Deep expertise in **system design, scalable distributed systems, microservices**, event-driven architecture, and secure REST APIs, backed by **cloud-native services on Azure** (App Service, Functions, Service Bus, AKS, Application Insights, Azure DevOps). Proven ability to **guide engineering teams** and drive **CI/CD automation** and DevOps transformation, delivering high-quality solutions across Finance, Credit Systems, Healthcare, and E-commerce domains. Strong in modern **Angular / React SPA development**, with applied **AI / LLM engineering experience** (Azure OpenAI, RAG, AI agents).

TECHNICAL SKILLS

Languages & Backend: C#, ASP.NET Core, .NET Core (6/7/8), ASP.NET MVC, Web API, Minimal APIs, LINQ, async/await, Dependency Injection, Entity Framework Core, GraphQL

Architecture & System Design: Microservices, Domain-Driven Design (DDD), CQRS, Event-Driven Architecture, Clean Architecture, SOLID, Scalable Distributed Systems, REST API Design

Frontend: Angular, React, TypeScript, JavaScript, RxJS, AngularJS, HTML5, CSS3, SPA, Responsive Design

Cloud – Azure: App Service, Azure Functions, Service Bus, AKS, API Management, Application Insights, Azure SQL

Cloud – AWS / GCP: AWS (EC2, S3, Lambda, ECS, RDS, IAM), GCP Cloud Run, Firebase

DevOps / CI-CD: Docker, Kubernetes, Helm, GitHub Actions, Azure DevOps Pipelines, Jenkins, CI/CD Automation, Containerization

Databases: SQL Server, Azure SQL, PostgreSQL, MySQL, Redis, MongoDB, Query Optimization, Indexing, Performance Tuning

Messaging: RabbitMQ, Azure Service Bus, Kafka, Third-Party & Payment API Integration

Testing & Quality: xUnit, NUnit, Moq, Unit Testing, Integration Testing, TDD, SonarQube / SonarCloud

Security: OAuth2, JWT, Windows Auth / AD LDAP, OWASP Top 10, Secure API Design

AI / GenAI: Azure OpenAI, LLM Integration, RAG, Semantic Kernel, Prompt Engineering, AI Agents, Vector Databases

Practices: Agile Scrum, Clean Code, Code Reviews, SDLC, Technical Mentoring, Cross-Functional Collaboration

CERTIFICATIONS

- Azure DevOps Engineer Expert (AZ-400) — Microsoft
- Azure Fundamentals (AZ-900) — Microsoft
- Azure Data Fundamentals (DP-900) — Microsoft
- Azure AI Fundamentals (AI-900) — Microsoft
- Developing ASP.NET MVC Web Applications (70-486) — Microsoft

PROFESSIONAL EXPERIENCE

AI Engineering & .NET Core Consultant — XEDI Corporation

Mar 2026 – Present | Remote | Part-time

Tech Stack: .NET Core, C#, Azure OpenAI, LLMs, AI Agents, Semantic Kernel, RAG, Vector DB, React, Web API

- Designed and prototyped **LLM-powered AI agents** using **Azure OpenAI and Semantic Kernel** to automate document processing, validation, and exception handling, reducing manual review efforts.
- Engineered a **Retrieval-Augmented Generation (RAG) pipeline** over vector-indexed business documents, enabling natural-language querying and cutting document retrieval time for internal teams.
- Shaped **.NET Core microservices** architecture and **React-based admin tooling** decisions, accelerating secure rollout of AI services through versioned REST APIs across multiple internal workflows.

Principal Software Engineer — Ingram Micro

Feb 2024 – Feb 2026 | Mumbai, India

Tech Stack: .NET Core 8, C#, Angular 17, TypeScript, RxJS, Web API, Microservices, GCP Cloud Run, Firebase, SQL Server, Docker, GitHub Actions

- Architected the **Global Notification Engine (GNE)**, a cloud-native, event-driven **microservices** platform on **.NET Core 8** and **Angular** delivering **100K+ daily email and push notifications** with high availability and fault tolerance.
- Integrated **Firebase push notifications** for unified multi-channel delivery (email + push) and exposed secure, versioned **REST APIs** following OWASP guidelines, with distributed tracing and observability across services.
- Established **CI/CD pipelines** using **GitHub Actions** and **Docker** containerization, enabling zero-downtime releases and cutting deployment time.
- Enforced **clean architecture** and **SOLID principles** by mentoring 6+ engineers and running code reviews, partnering with product owners in **Agile Scrum** ceremonies to shape roadmap priorities.

Lead Developer / Full Stack Engineer — Tech Mahindra

Nov 2017 – Feb 2024 | Mumbai / Noida, India

Tech Stack: .NET Core, C#, Web API, Entity Framework Core, React, TypeScript, SQL Server, Azure Functions, Azure Service Bus, Azure DevOps, Microservices

- Engineered **scalable .NET Core microservices** for the **Single View of Credit (SVOC)** platform, linked to SAP PC1, PR1, and Impulse, powering **10K+ daily credit evaluations** with real-time visibility and blocked-order processing across 20+ global business units.
- Architected reusable **React SPA frontends** with 20+ shared UI components and responsive dashboards, establishing state-management patterns adopted org-wide.
- Implemented serverless workflows with **Azure Functions** for asynchronous event processing and enterprise integrations, securing all API surfaces with Windows Authentication / Active Directory LDAP and **OWASP Top 10** controls.
- Automated **CI/CD via Azure DevOps** with SonarCloud quality gates and xUnit/NUnit tests, improving API response times through **Redis caching** and SQL indexing.
- Collaborated with architects and product owners to define the technical roadmap and ship iterative feature releases.

Lead Developer — Dotsquares

Mar 2016 – Mar 2017 | Jaipur, Rajasthan, India

Tech Stack: ASP.NET MVC, C#, AngularJS, Entity Framework, SQL Server, NUnit

- Developed a full-stack luxury travel booking application connecting 10+ hotel and flight third-party APIs for real-time search, dynamic pricing, and end-to-end booking workflows.
- Created SPA booking modules using **AngularJS** and **ASP.NET MVC**, improving page responsiveness and lifting booking conversion.
- Implemented **EF Code-First migrations** and NUnit test suites to maintain code quality and release stability.
- Coordinated with UK-based stakeholders on API onboarding, performance profiling, and deployment planning, keeping releases on schedule and aligned to business priorities.

Senior Software Developer — Technip (Vam)

Jul 2014 – Nov 2015 | Abu Dhabi, UAE

Tech Stack: ASP.NET, C#, SQL Server, jQuery, Active Directory

- Delivered an enterprise subcontract management system automating approval chains, payment workflows, and audit tracking, cutting approval cycle time.
- Designed a scalable 3-tier architecture with **Active Directory** authentication for secure, role-based access control.
- Directed code reviews, set coding standards, and managed production deployments for enterprise stakeholders.

Software Developer — Intelliviz Software

Mar 2013 – Jun 2014 | Jaipur, Rajasthan, India

Tech Stack: ASP.NET MVC, C#, Backbone.js, NHibernate, SQL Server, SSRS

- Built a property valuation and job management SPA (DDS2, USA client) managing 5K+ property records with SSRS-based reporting and **NHibernate ORM**.
- Optimized SQL queries and the data access layer, reducing report generation time.

- Owned full-stack delivery: requirements analysis, implementation, production support, and performance tuning.

Software Developer — Santech Technosoft

Apr 2012 – May 2013 | Jaipur, Rajasthan, India

Tech Stack: ASP.NET, C#, Silverlight (MVVM), WCF, SQL Server

- Developed a US Healthcare enrollment system with digital compliance workflows and role-based access control, supporting 50K+ member enrollments.
- Built an interactive **Silverlight (MVVM)** UI and **WCF** service layer for backend communication and data processing.
- Streamlined SQL components and supported defect resolution, release management, and operational stability improvements.

EDUCATION

Master of Computer Applications (MCA)

Sunrise University | Alwar, Rajasthan, India

Master of Business Administration – Information Technology (MBA)

Punjab Technical University | Punjab, India

Bachelor of Science (B.Sc.)

University of Rajasthan | Jaipur, Rajasthan, India
